

**UTOPIAN**  
ACADEMY FOR THE ARTS  
CHARTER SCHOOL NETWORK

Greetings Utopian Family,

Clayton County Public Schools has issued a new protocol for visitors entering all schools located within the county that will take effect starting October 1st. Before you may enter into a school building everyone must complete a COVID-19 pre-screen to receive authorization to enter the facility. This includes all visitors, contractors or deliveries.

All visitors must scan the “QR CODE” posted on the front door and complete the very short survey.

What is a “QR CODE”? A “QR CODE” is a type of barcode that can be read easily by a digital device and which stores information as a series of pixels in a square-shaped grid. QR codes are frequently used to track information about products in a supply chain and – because many smartphones have built-in QR readers – they are often used in marketing and advertising campaigns. More recently, they have played a key role in helping to trace coronavirus exposure and slow the spread of the virus.

If a parent/guardian does not have a Smartphone or would rather not utilize the “QR CODE” we will have hard copy forms posted at the front door as well on clipboards that will need to be completed prior to entering and once completed submitted to the front office.

Lastly, all visitors will need to complete the process by checking their temperature at the thermometers placed there as well. Thank you for your support keeping the learning environment safe and secured.
